# The FlowFi Wheel V3

The Wheel is how FlowFi gives back to $FLOWFI holders: FlowFi earns, buys $FLOWFI, and pays it out every hour, on-chain. V3 pays the top 100 holders, every hour. Payouts drop straight into your wallet: nothing to claim.

HOW THE MONEY MOVES

**1 · FlowFi earns**
50% of all FlowFi creator rewards buys $FLOWFI for the Wheel.

**2 · Rewards wallet**
Holds the $FLOWFI to pay out. Every send is public on Solscan.

**3 · Every hour**
10% of the wallet, counted on 1M max: up to 100,000. Never more.

**4 · Top 100**
All of it goes to the top 100 qualifying holders.

### Who gets the Wheel

- **Who:** the 100 biggest qualifying holders, ranked by how much $FLOWFI they hold.
- **To qualify:** hold for 3+ days. Not over 4% of supply. Team wallets, pools and locks are left out.
- **How you get it:** straight into your wallet every hour. Nothing to claim.

## Your share

**balance × holding time × taking part**

| PART | WHAT COUNTS |
|---|---|
| **Balance** | Your $FLOWFI, the lower of the last two hours (buying a minute before a payout doesn't count) |
| **Holding time** | Under 3 days: not yet earning · 3 to 29 days: 1× · 30+ days: **1.5×** |
| **Taking part** | Wallet linked to a FlowFi account that signed in this week: **1.25×** |

Your share = your score ÷ the top 100's total score, of that hour's payout.

**Not in the top 100 yet?** Hold to climb. The ranking is redone every hour, so places move as people buy, hold and sell.

## Fair-play rules

- **No wallet takes more than 5% of one payout.** What's above the cap is shared by everyone else.
- **Over 4% of supply: no Wheel rewards.** That share goes to everyone else.
- **Selling more than half restarts your holding time.** So does leaving and coming back.
- **Team wallets, pools and locks are left out.** The Wheel is for holders.

## What changed from V2

| | WHEEL V2 | WHEEL V3 |
|---|---|---|
| **Who gets paid** | Every qualifying holder | The top 100 qualifying holders |
| **Holding time, 1.25×, limits** | Yes | Same |

**Example (made-up numbers).** This hour pays 100,000 $FLOWFI. Sam holds 2,000,000, has held for 40 days (1.5×) and signed in to FlowFi this week (1.25×), so his score is 3,750,000. If the top 100 together score 375,000,000, Sam gets 1% of the hour: 1,000 $FLOWFI, straight into his wallet.

## Check it yourself

| WHAT | ADDRESS |
|---|---|
| **Wheel rewards wallet** | `AywZ8Yhsi2fUUkZANKaVEa96BpkuDTNw2GGy8bFg9CkQ` |
| **$FLOWFI (the only official CA)** | `5pQPh2EBz3tSUcqig9jGY73u4hNrhiiiLtYQSHaqFLow` |

Live numbers (paid to holders, burned, holders earning, last payout) are on the Wheel card at flowfiengine.app/official#wheel.

## Know the risks

- **Wheel payouts aren't guaranteed.** They depend on what FlowFi earns. If FlowFi earns less, the Wheel pays less.
- **Top 100 places move.** Others can buy more and pass you.
- **Price risk.** $FLOWFI's price can go down.
